PRE-RECORDED SESSIONS

The Secret to Success

ONE OF THE BEST WAYS TO ENSURE A SMOOTH VIRTUAL EVENT IS TO PRE-RECORD CONTENT

Whether SmartSource® is producing your entire virtual event or filling gaps, our pre-record services will help you deliver a polished performance and seamless transitions between speakers and sessions.

CONSISTENT AND CONTROLLED ENVIRONMENT

Among the benefits of pre-recording content:

- Avoid event day network or technical glitches
- Unlimited edits
- Better control over event flow
- Production-quality footage with added graphics, text, animations, and transitions
- Consistent audio and video throughout the session

SmartSource provides a Presentation Kit, which is shipped direct or set up on location, including lighting, a desktop microphone, an HD webcam, and a laptop or tablet pre-configured with recording software. Our team works closely with presenters remotely – or in-person – to ensure they look and sound their best. Once recordings are complete, and everyone is satisfied, they are uploaded to the cloud for easy access.
